| Action Information | | |
| <p>Description: OSC Reddy spoke with Mr. Richard Slote (ConEd). He stated that at 21:30 hrs. on 12/6/2021, a tree fell on a transformer due to wind and rain causing a release of non-pcb oil (approx. 40 gallons) to grass and asphalt. This morning a ConEd environmental personnel noticed an oil sheen across the street from where the pole fell. ConEd contractors are in the process of cleaning up the spill on the grass and asphalt. Additionally, ConEd has hired Ken's Marine to conduct an on-water oil spill clean-up. They estimate less than a gallon of fuel may have entered the waterway. However, they did not see any oil in the catch basin.</p> | | |
